

EVERCOR SOLID SURFACE WARRANTY, CARE AND CLEANING

Care & Maintenance

EverCor was created for easy-care. Just follow the listed simple guidelines to keep your **EverCor** surfaces looking as good as the day they were installed.

1) ROUTINE CARE

Ammonia based cleaners, soapy water or commercially available solid surface cleaners can remove most dirt and residue. Stubborn residue will require a little stronger cleaner. Some colors may appear to require more frequent cleaning to maintain a uniform finish. Darker colors tend to require more attention than lighter colors. Over time, through care and use, your countertop will acquire a patina, changing the appearance of the finish. You may restore the look of the original finish by following the refurbishing guidelines below.

2) COUNTERTOP CLEANING

Most Dirt & Residue:

Use soapy water or ammonia based cleaner, rinse and wipe dry.

Water Marks:

Wipe with damp cloth and wipe dry.

Difficult Residue:

Spray residue with cleaner from Stone Care International, wait for about 30 seconds for cleaner to work. Wipe dry with a paper towel. If residue persists, repeat process. If residue still persists, follow directions for removing scratches.

Disinfecting:

Occasionally wipe surface with diluted household bleach (1 part water/1 part bleach). Rinse top thoroughly with water and wipe dry.

Matte:

Rub entire surface with a green 3M Scotch-Brite®* pad in a circular motion. Rinse surface with water and wipe dry.

(DO NOT get bleach solution in eyes or on bare skin. Always wear rubber gloves and protective eyewear when working with bleach. Over the counter cleaners, such as Clean EnCounters® may be used for routine cleaning in place of soap and water.)

3) PREVENTING HEAT DAMAGE

EverCor solid surface is excellent for heat resistance. As with all surface materials, it is important to minimize direct heat exposure to protect the surface. When placing hot objects on any surface, it's recommended to use hot pads or heat trivets.

4) PREVENTING OTHER DAMAGE

In most cases, **EverCor** surfaces can be repaired if accidentally damaged. However, be sure to follow the guidelines here to prevent any permanent damage to **EverCor**. AVOID exposing **EverCor** to strong chemicals, such as paint removers, oven cleaners, etc. If contact occurs, quickly flush the surface with water. Do not cut directly on **EverCor** countertops.

EVERCOR SOLID SURFACE WARRANTY, CARE AND CLEANING

5) REMOVING MINOR CUTS AND SCRATCHES*

EverCor surfaces are completely renewable. The minor cuts and scratches can be removed by the following instructions:

- Judge the severity of the scratch and start with the finest grit sanding pad to remove the scratch.
- Rub over scratch in a straight line to remove it. Periodically switch rubbing the direction 90°. Be sure all of the scratch is removed. If this first step takes too long, try the next heavier grit sanding pad. To minimize dust during sanding, wet the surface.
- Rinse pad periodically to clean residue.
- Clean top with water. Select next lighter grit and repeat process
- Rub over a larger area to blend in sanding.
- Continue process using successively finer grits until desired finish level is achieved.
- Rinse out all pads used and air dry before putting them away.

Solid Surface Products – Inspired by Nature

EverCor from US Marble is an elegant, smooth solid surface product that is durable and easy to maintain as well as beautiful. The sealed surface resists stains, chips, and fading, and can be adapted to a wide variety of applications for vanity and counter tops.

EverCor products are NSF approved and certified to ANSI Z124 standards.

10-Year Limited Warranty

United States Marble, Inc. (“US Marble”) EverCor Solid Surface products are warranted to the original purchaser to be free from manufacturing defects in the material under normal use. United States Marble will, at its option, replace, repair, or make suitable adjustment, where our inspection shows any such defects occurring in normal use, in residential application, to the original owner/purchaser. Normal wear and tear excluded. Commercial applications excluded.

United States Marble is not responsible for any removal, installation or labor cost, or any consequential damage as a result of any defective product. Improper installation, and improper care or maintenance of the product will void this warranty. Implied warranties, including that of merchantability, are expressly limited in duration to the expiration of the warranty. This warranty gives you specific legal rights. You may also have other rights which vary from state to state. This is our exclusive written warranty. Warranty Registration Card must be submitted within 60 days of the Original Purchaser’s receipt of the product to validate this warranty. To obtain warranty service, you must have your original sales receipt. You may contact the place of purchase to initiate, or contact US Marble at 7839 Costabella Avenue, Remus, Michigan 49340.

NOT COVERED BY WARRANTY:

- US Marble does not replace product on the basis of color hues, veining patterns or intensity. Store samples are a representation of the final product – and can vary in shading and veining. Website and/or brochure color illustrations should be used as a reference only. Customers should make their final color selections from actual store samples...and be aware of the variations. Matte finish is the only finish available.
- US Marble does not replace product resulting from damages occurring after delivery; during installation or storage of the product; improper storage/handling; use of abrasive or improper cleaners or chemicals; repair by someone other than US Marble factory-trained representatives.
