

STANDARD SHOWER BASE WITH BENCH SEAT ORDER FORM

Panel dimensions for bench installation

CALCULATION of Panel Cost:
Convert linear inch measurements to square feet as follows:

1. Multiply width (in inches) by height (in inches), then
2. Divide that total by 144 for the sq-ft of the panel.
3. Multiply the sq-ft area by the sq-ft cost to get the panel price.

All panels 3/8" thickness except "D" which is 3/4".
